

Football For All Policy

Motherwell FC works closely with the Motherwell FC Community Trust to develop football opportunities for all players with a disability in the club's local community.

The Motherwell FC Community Trust has taken a leading step to promote and encourage players with a disability to participate in football.

Motherwell FC recognises that some people or communities start from a disadvantaged position and may need proactive assistance to gain access to all opportunities that exist in football.

Everybody regardless of their ability should have the opportunity to access football. Through the club's 'Football for All' initiative, players will receive their training at local clubs providing regular football, a feeling of belonging to a club, competition, and a safe environment in which to express themselves.

Motherwell FC will create opportunities for people with disabilities across all disability groups. Its pan disability approach will ensure high participation and integration of all disabilities forging new partnerships for Motherwell FC within the disability community.
